

February 18, 2010

Dear Michael Graf,

I am extremely pleased with Aztec Solar's website developed by Custom Websites For You. You created and published a website for us in a timely and professional manner. I am impressed with the attentive customer service of Custom Websites and have benefitted from the favorable maintenance contract you offer. I am most grateful that you worked patiently with us until we could mold the ideas of our website into something tangible. The internet is one of the most important marketing and branding tools today, I am happy that I worked with a company that I could trust with something so valuable.

Sincerely,

Heather Dowling

Marketing Manager
